## Looking For Something Different?

Hey you, yes you. Have you always wanted to enter a contest, but you didn't have the right plane, or wasn't talented enough to compete? Well this is your kind of contest. There are four different ways to win. 1<sup>st</sup> way: the most different shape of aircraft. It can be anything that flies, a lawn mower, a dog house, a witch on a broom, a pig, a ghost, anything that you can get to fly. 2<sup>nd</sup> way: the most outrageous paint scheme, it can be anything, it is up to you. 3<sup>rd</sup> way: the most different pilot, no not you, the pilot in the plane. 4<sup>th</sup> way: the best free style flying. Oh I almost forgot, there is also a CD's choice award.

This contest is for all. Newcomers and old modelers. All you need is a rc plane and the desire to show off.

Planes can be scratch built, kit built, kitbashed, ARF's, RTF's, fixed wing, glider, ducted fan, multi rotor, helicopter, blimps, ornithopter.

If you can't think of something different then go to the internet, there is a lot to choose from. Let your imagination go, have fun come and see what others come up with.

No Float Planes.
